- I hereby declare that this work does not defame any individual or contain any non-consensual deepfakes.

2. Judging and Awards

- I will not raise any objections regarding the subjective evaluation results of the judging committee or the selection of award-winning works. However, should the organizer request confirmation regarding objective grounds for disqualification, such as determining whether a work is identical to another or ruling on misconduct, I will faithfully provide an explanation within the designated deadline. I agree to abide by the organizer's final decision in the event that the explanation provided is insufficient or is not submitted within the deadline.
- If any violations such as plagiarism, unauthorized use, or rights infringement are discovered even after the award is granted, I understand that the award will be revoked, the prize money and certificate must be returned in full, and I may be disqualified from future participation.
- If the video features real individuals, I will submit consent forms for the use of their portraits. I understand that failure to do so may result in disqualification from judging or cancellation of the award.

- The copyright (economic and moral rights) of the submission belongs to me. However, I agree that if my work wins an award, the organizers may use the submission without prior consultation and without time limitation for the purpose of fulfilling the goals of the contest.
- Editing, reproduction, distribution, exhibition, online posting, promotional materials, and publication for public interest purposes
- I acknowledge that if my work wins, I will be deemed to have agreed to the above usage terms, and that the prize money will serve as fair compensation for such usage.
